

SCHEDULING INSTITUTE TEAM TRANSFORMATION PROGRAM

# Member Spotlight

## DR. KYLE H. OF PORT CITY DENTAL...

has seen a marked improvement in his practice's success after implementing Scheduling Institute's proven systems for increasing New Patients.

When Dr. Kyle was first introduced to S.I. he was averaging 82 New Patients per month. He knew that if he could increase that number, he would dramatically increase his revenue. Dr. Kyle was able to do just that using the Scheduling Institute. Within 12 months of completing his 5-Star Telephone On-Site Training, he was averaging 107 New Patients per month!

Dr. Kyle is now able to focus on what matters most to him—his patients—and he knows that if they are happy with the way they are treated by his team, they will return again and again. This makes Dr. Kyle feel good about himself and his business, knowing that he is providing excellent care and service to his patients.

Since joining Scheduling Institute, Dr. Kyle and his team have created a vision for their future and are being held accountable every month, to ensure focus and results, while maintaining a great patient experience.
